

## 1. DARK DISEASE

Pools of violence, I'm drowning. Open sores of memories.  
Rage inside me. Cycling. Building greater. Towering.  
Cut me open and you'll see a bloody child cowering.  
I deserve this suffering. Beat some sense right into me.

You're in good company. Come join me in dark disease.

I don't need your therapy. Certain things should stay buried.  
I know life is just a dream. Wake me up and hear me scream.  
Status quo and aching need. Poison needle dipped in bleach.  
Now I'll get what's good for me. Knock some sense right into me.

You're in good company. Come join me in dark disease.

Fallen right down on my knees. Praying, crying desperately.  
gOD above is not helping. King of Kings how he hates me.  
Nurses gather whispering. Men in lab coats profiting.  
Probing eyes are questioning. Smack some sense right into me.

You're in good company. Come join me in dark disease.

## 2. MISS CLOVERDALE

Such a pretty girl...

Yea, she's got the look. And the girl can cook. A vegetarian. Native Californian.  
Knocked up at 18. And again at 23. A hometown beauty queen with a trail of shattered dreams.

Hail! Hail! Miss Cloverdale!  
Hail! Hail! Miss bloody tooth and nail, baby, oh yeah.

Such a lovely girl...

She's the best you'll find within the county line. The best you'll get.  
Diabetic sex addict.  
Tastes like a pill. California hills. Something t'keep. Sure hope y'like herpes.

Hail! Hail! Miss Cloverdale!  
Hail! Hail! Miss bloody tooth and nail, baby, oh yeah.

Such a tragic waste. Where the hELL is Cloverdale anyway?

### 3. SUICIDE SUNRISE

I wanna die. I wanna die high. I wanna die tonight. On the bright side.  
Suicide Sunrise. Suicide Sunrise.

Here's what she said; "I'm leaving you again." No, let me guess. What will  
you say next? "Can't we just be friends?" Damn this hot August.

I wanna die. I wanna die high. I wanna die tonight. On the bright side.  
Suicide Sunrise. Suicide Sunrise.

I've been set free. Well hooray for me. The end of everything that means  
anything. Life so stifling I can't even breathe.

I pray to gOD the sun won't rise.  
Shame so bright nowhere to hide.  
I am just too weak to fight.  
Tell the truth I'd rather die.

I wanna die. I wanna die high. I wanna die tonight. On the bright side.  
Suicide Sunrise. Suicide Sunrise.

Just wanna go back. Yea, into the black. The end of romance. There ain't  
no second chance. Time to face facts. Oh I know I can't.

I wanna die. I wanna die high. I wanna die tonight. On the bright side.  
Suicide Sunrise. Suicide Sunrise.

### 4. SLOWLY OUTLOUD

Kiss me well. Kiss me well.  
Slowly Outloud. Slowly Outloud.

Kiss and tell. Kiss and tell.  
Slowly Outloud. Slowly Outloud.

What was I thinking? I'll never be the man you need!

Kiss me well. Kiss me well.  
Slowly Outloud. Slowly Outloud.

Kiss and tell. Kiss and tell.  
Slowly Outloud. Slowly Outloud.

What was I thinking? I'll never be the man you need!

5. SHE WILL (if she wants to)

First we got stoned, then she took me home. Unplugged the phone so we could be alone. Oh yeah.

She will if she wants to. She will if she wants to.

Turn up the lights. A sight for sore eyes. If for only one night this lonely boy's alright. Oh yeah.

She will if she wants to. She will if she wants to.

A word to the wise. Some plastic advice. Wrap it up tight. Or feel love bite.

She will if she wants to. She will if she wants to.  
She will...

6. MIGHT BE ME (fake live)

I hear whispers in the rain. Violent specters call my name. Double doses in my veins. Can ya tell me who to blame?  
Oh no!

I got this feeling it might be me! Then again it might not be!

I see shadows in the dark. Never been so deep so far. Steel bands around my heart. Who has torn my world apart?  
Oh no! Please!

I got this feeling it might be me! Then again it might not be!  
Do you love me?

Vivid colors shades of gray. Perfect peace, exquisite pain. Locked inside a shrinking cage. Who will help me find my way?  
Oh no! Please gOD help me!

I got this feeling it might be me! Then again it might not be!

## 7. THREE KIDS

All I have is what she left. All I have left are images. All I want now is forgiveness. I have some advice to give.

Never trust a woman with three kids.

Why does it have to be like this? Why does she have to have three kids? Promises are dangerous. I name thee, Cory Tobias! Cory Tobias!

All I have it isn't much. Drive a poor boy completely nuts. All I want now is her touch. I've got some advice to give.

Never love a woman with three kids.

Why does it have to be like this? Why does she have to have three kids? With a lust that's dangerous. I hate thee, Cory Tobias! Cory Tobias!

All I have is where I've been. Memories of loveliness. All I want is to begin. This advice is serious.

Never kiss a woman with three kids.

Why does it have to be like this? Why does she have to have three kids? With a kiss that's dangerous. I love thee, Cory Tobias!

She took the joy out of everything! She's just a love extraction machine! She rode the love right out of me! And that's a whole lotta me!

## 8. MYSTERY

It's been too many days since I went away. It's been a long time since I did the crime. It's been many years since I have been here. It's been an age since I've seen the stage.

Won't ya welcome back your mystery man!

Mystery.

Now I'm back in town and I brought my sound. I'm honor bound to bring you down. I can be found where music is loud. Dead in the ground, head in the clouds.

Won't ya kneel down. Your king with no crown!

Mystery. Mystery.

## 9. THE EASY WAY

Down by the Russian river there is an answer known only to me. Down  
where swirling waters spill into the sea.  
Down by the poison coastline there is a thin line between the belief:  
what's wrong, what's right. Why don't you decide?  
Please won't you be kind? The wretched skyline. The fog it hides the final  
play I make tonight. The end of pain. The end of this life.  
An' I say. I make my way on roads unpaved. hEAVEN's calling and I  
obey. No one can fight the easy way.

I'll take the easy way.

An '85 Cadillac with white wall tires. One that's completely flat. Down by  
the riverbed, it's the sound of death.  
The engine idles. One end a garden hose in the tailpipe. The other in the  
rear window, whispering. Monoxide poisoning.  
Tire tracks, oh in the sand. Follow the trail and the tale's sad. The land's  
end without a friend that's mine. It's the end of life.  
I make my way on roads unpaved. hEAVEN's calling and I obey. No one  
can fight the easy way, I'm sad t'say.

I'll take the easy way.

## 10. IN THE RAIN

Have ya seen my baby? In primer gray Mercedes with expired tags and  
child seat in back.  
She changed everything and now she's gone missing. Word on the street,  
I hear dark clouds thundering. Oh yea.

Tear apart. Bring the Pain. Tears at night in the rain.

Have ya heard my song where everything's gone wrong? I should just  
move on but damn those legs are long.  
She put me on display. Public disgrace. Oh, she ran way. Wipe the smile  
right off my face! Oh yea!

Tear apart. Bring the Pain. Tears at night in the rain.  
Firelight. Life in flames! Burning bright in the rain!  
Tears at night in the rain.

11. FALL FROM GRACE

I trusted you just like a friend and now we have the bitter end.

Fall from grace. My last mistake!

I shared with you all of my dreams now I know what betrayal means.

Fall from grace. My last mistake!

I know I said I wouldn't call but loneliness transcends it all.

Fall from grace. My last mistake!

Ya cut your hair and dyed it, too. I guess you're not the girl I knew.

Fall from grace. My last mistake!
